

Navigator's Library System Requirements

- Requires Adobe Acrobat Reader version 6 or later. Acrobat Reader v. 7 is included on the disk should you need to install it.
- If you're installing the Navigator's Library to your hard drive, you'll need 1,197MB of free space (there's lots of data on these disks!). If you don't have this much space, that's not a problem - you can access the Navigator's Library from the disks, without installing to your hard drive.
- If you're installing Acrobat Reader version 7, you'll need Windows 2000 with Service Pack 2, or Windows XP; an Intel Pentium processor; 128MB of RAM; 90MB of available hard-disk space; and Microsoft Internet Explorer 5.5 or higher.
