

# TABLE OF CONTENTS

DEDICATION .....	4	WOODY GOOSE .....	51
<b>TABLE OF CONTENTS.....6</b>		Problems Begin .....	52
INTRODUCTION .....	15	Navigational Difficulties .....	52
Storms at Sea .....	16	Anchoring Off a Lee Shore .....	53
Heavy-Weather Games .....	16	Key Conditions .....	55
Illustrations .....	17	Contributing Factors .....	57
Interview Format .....	18	JANAMARIE II .....	58
Keys to Success in Heavy Weather .....	18	Departure from Australia .....	58
Perspective .....	19	Capsize .....	60
ACKNOWLEDGMENTS .....	20	Key Conditions .....	60
<b>TASMAN TEST BED.....22</b>		Contributing Factors .....	60
EQUINOCTIAL GALE SEASONS .....	23	Opinions and Recommendations .....	61
CALEDONIA .....	24	500mb Warning Signs .....	61
Rig Options .....	25	FREYA .....	65
Heaving To .....	25	Weather Issues .....	66
Hitting the Wall .....	25	Deploying a Parachute Anchor .....	66
Postscript .....	27	Knockdown .....	66
WINGS .....	28	Activating the EPIRB .....	68
Fleet Departure .....	28	Company .....	69
Minerva Reefer's Yacht Club .....	29	More Knockdowns .....	70
A Stitch in Time .....	30	Helicopter Rescue .....	71
Back at the Yacht Club .....	31	Rescue Coordination .....	74
Squash Zone Potential .....	31	SALACIA .....	78
Low Pressure Deepens .....	31	Broken Motor Mount .....	78
Slowing Down .....	32	Using a Sea Anchor .....	78
Aboard Never Monday .....	33	Attempted Rescue .....	79
Motorsailing Aboard Wings .....	34	New Zealand Maritime Safety Report .....	80
ANNAPURNA .....	35	Thoughts from Mike Fritz .....	82
Conditions Along the Way .....	35	HIO AVAE .....	83
Passage Tactics .....	36	Watching the Weather .....	83
Lessons Learned .....	36	Signs of a Front .....	85
BUCEPHALUS .....	38	Setting the Trysail .....	86
Preparing to Go to Sea .....	38	Adding Sail .....	87
The Rumor Mill .....	39	WEATHER REVIEW .....	89
Options at 200 Miles per Day .....	39	Weather Rhythms .....	89
Passaging Logic .....	40	Using Historical Data .....	89
Tropical Depression to the North .....	40	Squash Zones .....	89
Getting Ready for a Blow .....	41	Regional Idiosyncrasies .....	90
Seascape from Hell .....	42	Sea State .....	91
SHAKTI .....	43	Bomb Potential .....	91
Departure from Tonga .....	44	Computer Modeling .....	92
First Three Days at Sea .....	44	Surface Synoptic Charts .....	92
Cold Front .....	45	November 27 and 28 .....	92
Landfall on a Lee Shore .....	46	Bent Back Warm Fronts .....	94
Weather Logic .....	47	Helicopter Pilot Comments .....	95
Professional Forecasts .....	48	Bob McDavitt's Comments .....	95
In Retrospect .....	49	Sea State .....	97
WHEN THE SITUATION DETERIORATES .....	51	Dynamic Fetch Possibilities .....	98
		500mb Analysis .....	98
		LEARNING FROM OTHERS .....	101
		Future Plans .....	102

<b>PREPARATION.....105</b>	
<b>RISK ASSESSMENT .....</b>	<b>106</b>
Preparing for a Rollover .....	106
Clear the Decks .....	106
Extra Lashings .....	107
Life Raft Security .....	107
Storm Windows .....	107
Center of Gravity .....	107
Windage .....	108
Securing the Interior .....	108
